

New Source Review newspaper advertisements for construction permit applications, July 22, 2004. The following public notices have been published in the newspapers listed below each advertisement. These newspaper advertisements for construction permit applications were published on one of the following dates: July 20, July 21, or July 22, 2004. Public notices are generally published every two weeks. The previous publication of public notices was July 6-8, 2004.

PUBLIC NOTICE

The Tennessee Division of Air Pollution Control (TDAPC) has received requests for construction of air contaminant sources as noted below. The proposed construction is subject to part 1200-3-9-.01(1)(h) of the Tennessee Air Pollution Control Regulations, which requires a public notification and 30-day public comment period. Interested parties may express their comments and concerns in writing to Mr. Barry R. Stephens, Director, Division of Air Pollution Control, 9th Floor, L & C Annex, 401 Church Street, Nashville, Tennessee 37243-1531 within thirty (30) days of the date of this notice. Questions concerning a source may be addressed to the assigned Division personnel at the same address or by calling 615-532-0554.

Individuals with disabilities who wish to participate should contact the Tennessee Department of Environment and Conservation to discuss any auxiliary aids or services needed to facilitate such participation. Such contact may be in person, by writing, telephone, or other means, and should be made no less than ten days prior to the end of the public comment period to allow time to provide such aid or services. Contact the Tennessee Department of Environment and Conservation ADA Coordinator, 12th Floor, 401 Church Street, Nashville, TN 37243, 1-866-253-5827. Hearing impaired callers may use the Tennessee Relay Service, 1-(800)-848-0298.

The applicant is ProCote, Inc. with a mailing address of 1510 Hal Henard Road, Greeneville, TN 37743. They seek to obtain an air contaminant permit (Division identification number: 30-0178-01/57443) for modification of a Surface Coating Operation located at 1510 Hal Henard Road, Greeneville, TN 37743. This existing operation consists of a dip tank, several cleaning stages, and a curing oven used to coat metal lawn and garden components. The proposed modification is to correct the permit to include conditions for the curing oven. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. J. Aslinger is the assigned Division person.

For the Greene County "Greeneville Sun"--published once on or before Thursday, July 22, 2004.

The applicant is Evan Energy Company, LC with a mailing address of 2578 East Stone Drive, Suite C, Kingsport, TN 37660. They seek to obtain an air contaminant permit (Division identification number: 37-0088-01/57434) for modification of a Natural Gas Compression Station located approximately 2000 feet south of Hwy 113 in Rogersville, TN 37857. This existing operation consists of one (1) natural gas-fired engine used to compress natural gas for pipeline transmission. The requested modification is the addition of a second natural gas-fired engine, a dew point control system with associated condensate storage tank, and a methanol storage tank. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be physical construction. Regulated air contaminants emitted by this source would increase. Mr. R. Chuang is the assigned Division person.

For the Hawkins County "Rogersville Review"--published once on or before Thursday, July 22, 2004.

The applicant is Industrial Door Contracting, Inc. with a mailing address of P.O. Box 158, Columbia, TN 38402. They seek to obtain an air contaminant permits for air contaminant sources located at 820 Mayberry Springs Road, Columbia, TN 38401; as follows:

(1) Surface Coating Operation (Division identification number: 60-0192-01/57424). This existing operation consists of a spray gun and associated equipment used to coat metal aircraft hangar doors. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. G. Latif is the assigned Division Person.

(2) Sandblasting Operation (Division identification number: 60-0192-02/57425). This existing operation consists of equipment used to sandblast steel hangar doors. Because of the amount and type of emissions, the use of pollution control equipment is not proposed. There would be no physical construction. Regulated air contaminants are emitted by this source. Ms. G. Latif is the assigned Division Person.

For the Maury County "Daily Herald"--published once on or before Thursday, July 22, 2004.

The applicant is Charles Blalock and Sons, Inc. with a mailing address of P.O. Box 4750, Sevierville, TN 37864. They seek to obtain an air contaminant permit (Division identification number: 78-0109-02/57444) for construction of a Portable Rock Crushing Operation at Middle Creek Road, Pigeon Forge, TN 37863. This proposed operation would consist of crushing, screening, and conveying operations used to produce crushed stone from recycled concrete. The crusher would be powered by two internal combustion engines, which would be fueled by number 2 fuel oil. Wet suppression would be used for control of particulate emissions, and the source would be required to use Best Available Control Technology (BACT) to reduce emissions of nitrogen oxides and volatile organic compounds. There would be physical construction. Regulated air contaminants would be emitted by this source. Mr. T. Blake is the assigned Division person.

For the Sevier County "Mountain Press"-- published once on or before Thursday, July 22, 2004.

The applicant is Rogers Group, Inc. with a mailing address of P.O. Box 25250, Nashville, TN 37202-5250. They seek to obtain an air contaminant permit (Division identification number: 80-0041-01/57450) to modify a Rock Crushing and Sizing Operation located at 324 Rogers Road, Gordonsville, TN 38563. This existing operation consists of a crusher, screens, conveyors, crushed aggregate stockpiles, and associated equipment used to produce crushed limestone aggregate. Wet suppression is used for pollution control of particulates (TSP) and is estimated to be 90.0% efficient. The requested modifications are to relocate a crusher and four (4) transfer conveyors and to increase the capacity of the primary crusher from 600 to 700 tons per hour. There would be physical construction. There would be an increase in regulated air contaminants emitted by this source. Mr. W. Medley is the assigned Division person.

For the Smith County "Carthage Courier"--published once on or before Thursday, July 22, 2004.

The applicant is Exide Technologies with a mailing address of 364 Exide Drive, Bristol, TN 37620. They seek to obtain air contaminant permits for modification of air contaminant sources located at the same address, as follows:

(1) Battery Strip Caster Operation (Division identification number: 82-0256-13/57334). This existing operation consists of strip caster #1 and grid casting banks #5 and #6. Wet collector #16 (scrubber) is used for pollution

control. The requested modification is to add wet collector #20 to strip caster #1. There would be physical construction. Regulated air contaminants are emitted by this source. Mr. S. Simpson is the assigned Division person.

(2) Battery Grid Caster Operation (Division identification number: 82-0256-01/57350). This existing operation consists of strip caster #2 and grid casting banks #1 through #4. Wet collector #1 (scrubber) is used for pollution control. The requested modification is to increase the production rate of the grids. There would be no physical construction. Regulated air contaminants are emitted by this source. Mr. S. Simpson is the assigned Division person.

For the Sullivan County "Bristol Herald Courier"--published once on or before Thursday, July 22, 2004.
